

Summer Meal Partners Resource Guide

Although programming is not required for summer meal sites, research shows that enrichment opportunities offered alongside summer meals draw more consistent youth attendance. Parents feel more comfortable sending their children to meals sites when they know it is a safe, fun environment with learning and recreational opportunities. Plus, kids can reap the benefits of increased physical activity, exposure to learning opportunities, and increased socialization.

Organizations in this guide may be available to provide enrichment activities to Summer Meal Service Program sites throughout the summer. Please contact them directly for more information.
